LIFE SCIENCES COURSES OFFERED BY HARVARD POST-DOCTORAL FELLOWS

Who are teaching: Post-doctoral and Independent researchers from world class institutions from the United States, Europe and India.

Cell Biology:

Key concepts such as membrane structure and function, membrane trafficking, cell signaling, functional organization of cell organelles and cellular processes such as cell migration and cell death will be covered.

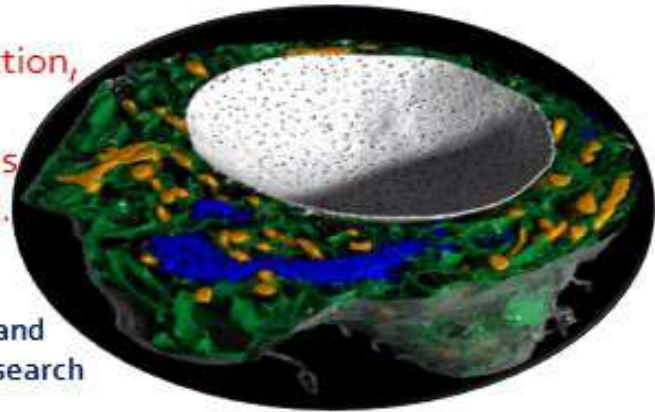

Image courtesy: Daniel Berger, Jeff Lichtman lab

Eligibility:

Motivated undergraduate students enrolled in public colleges and universities in India who want to pursue higher education in research (PhD) in life sciences.

Computer, tablet or smart phone with stable internet connection is mandatory

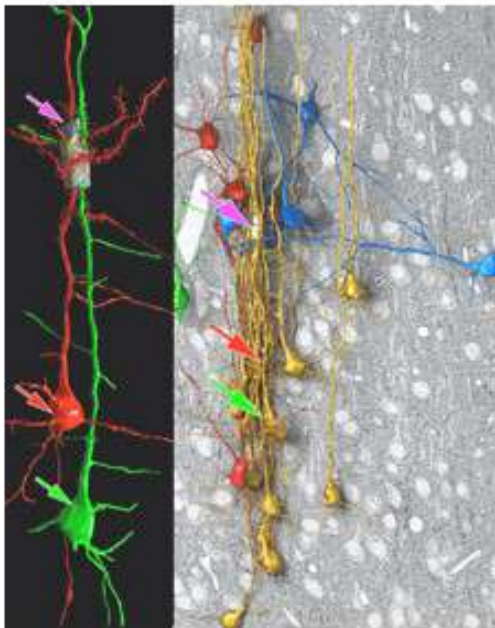

Image courtesy: Kasthuri et al., Cell 2015.
Jeff Lichtman lab, Harvard University

Basic Neurobiology:

Fundamentals of neuroanatomy including neurons, glial cells and synapse structure and organization of Neural Circuits. Electrical properties of neurons and synapses, basics of sensory and motor systems and animal behavior will be taught.

Eligibility:

Undergraduate students enrolled in public colleges and universities in India fascinated by the field of neuroscience and wonder "how brain works" and interested to pursue higher education in research (PhD) in neuroscience.

Computer, tablet or smart phone with stable internet connection is mandatory

Benefits for the students who attend these courses:

- Training in cutting edge scientific concepts and techniques related to the course topic
- A certificate for active participation from Scienspur and Lakshmi Mittal & Family South Asian Institute, Harvard University
- An overview of career options

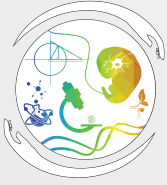

Application Deadline: Sep 30th, 2021

Course duration: October 2021-January 2022, two classes a week

Mode of teaching: online virtual platform
